DAILY CLEANING

CAUTION - CLEAN AND SANITIZE YOUR DISPENSER **DAILY**

1. Thoroughly clean the inner surfaces of the dispenser using a mild cleaner/sanitizer and water solution then thoroughly rinse the dispenser with warm water.

NOTE - Bunn-O-Matic recommends the use of KAY-5® for this purpose. (Kay-5 is a product of the Kay Chemical Company, Greensboro, NC) Simply pour the cleaner/sanitizer into an empty dispenser. Run a complete brew cycle *of just water* into the dispenser and let it set for a minute. Empty the dispenser and thoroughly rinse with warm water.

2. Remove the faucet handle/stem assembly by unscrewing the faucet bonnet just beneath the faucet handle. Use the enclosed cleaning brush to thoroughly clean the inside of the faucet and the faucet shank from inside the dispenser.
3. Disassemble the faucet/stem assembly. The faucet cleaning procedure requires a 3-compartment sink. Thoroughly wash all faucet parts in a mild detergent and water solution in the first sink. Rinse the parts in hot water in the second sink. Sanitize the parts for one minute in 75°F warm chlorine solution (50 -100 ppm) in the third sink. Do **NOT** use full-strength bleach, but a solution with water, of 50 - 100 ppm of chlorine. Reassemble the faucet and attach it to the dispenser.
4. Wash the entire outside surface of the dispenser with a clean damp cloth.

CAUTION - NEVER KEEP BREWED ICED BEVERAGES OVERNIGHT
